

105. Set Decorators

A Set Decorator shall be hired by and under the supervision of the Producer (Employer). The Set Decorator shall be in charge of and responsible for the decorating of all sets, excluding all work specified in Paragraph 101. It is agreed, however, that on distant location where sets are being shot which require only a small amount of set decorating, such set decorating may be assigned to the Property Master. Prior to such assignment, the matter shall be discussed between the representative of the Producer and the Business Representative of the Local Union. It is the intention of the parties to continue the present practice of the studio to use persons covered by this Agreement in the selection and acquisition of all set decorations and properties used in the decorating of sets. A Set Decorator, if so instructed, shall not be required to break down a script or estimate budget costs at home on his own time. (For screen credit, see Paragraph 84.)
